

CALL FOR PAPERS

Energy from Biomass and Waste UK 2010

Landfill Diversion, Energy and Materials Recovery, Emission Reduction

Deadline for abstracts: **June 30, 2009**

On January 26 – 27, 2010 the **Energy from Biomass and Waste UK** (EBW UK) Conference & Exhibition is held in London, UK. You can now submit abstracts for the technical program and workshops.

The conference focuses on:

- biomass and waste treatment technologies
- materials recovery
- waste-to-energy
- anaerobic digestion
- landfill gas recovery
- biomass heat and power
- biofuels
- news-from-the-lab
- market trends
- legislative issues
- project financing
- energy efficiency
- emission reduction

Additionally, the programme features two workshops on "making energy from waste projects profitable" and "winning public approval for new waste-to-energy projects". The programme outline can be viewed on: www.ebw-uk.com

Abstracts should be no longer than 1,000 words and explicitly state the intention and key issues of the presentation. EBW UK exhibitors will be given preference in the selection process. Presentations are 20 mins. each. All accepted abstracts will be published.

Please send your abstract as a word or pdf document to: **abstract@ebw-uk.com**

The deadline for submissions is June 30, 2009.

You will be notified by August 31, 2009 if your presentation can be included in the programme.

Before this date, please do NOT send power point presentations or complete manuscripts.

Please note that the conference organisers cannot reimburse travel expenses or pay speaker fees.
